

ZeroWaste: Solving the Food Waste Crisis in Uzbekistan

FEBA team

NEAR-EXPIRY STOCK

Epiring food

Waste

Loss

**Environmental
damage**

Near-Expiry Product Marketplace

✓ A digital platform where supermarkets sell near-expiry products at discounted prices.

Key Benefits:

- Helps supermarkets reduce waste & financial losses.
- Enables customers to buy affordable food.
- Supports a sustainable, zero-waste economy.

Green-Tech in Action

Step 1: Smart Inventory Tracking

- ✓ Supermarkets update stock in real time using IoT sensors & barcode scanning to track near-expiry products.

Step 2: AI-Powered Discounts

- 🧠 AI analyzes expiry dates, demand, and stock levels to suggest the best discounts, reducing food waste.

Step 3: Eco-Friendly Shopping

- 📲 Customers browse & buy discounted items through the app/website, making sustainable shopping easy.

Step 4: Automated Waste Reduction

- ♻️ The system updates stock automatically, preventing overstocking and reducing landfill waste.

We target 3 things:

NATURE

PEOPLE

MARKETS

No food waste

**Food for the
POOR/Charity**

Expired products = Financial loss
